Building on prior learning	In primary school, students are taught the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships and relationships with other children and with adults. This idea of healthy relationships is developed in Secondary school and intimate relationships are also explored further. Health and wellbeing is also a focus. Students are taught about the benefits of a healthy lifestyle and how this can aid their mental health. The curriculum addresses the three core themes in PSHE across the year: Health and Wellbeing, Relationships and Living in the Wider World
Enrichment within the Curriculum	Students also have one form session of PSHE a week through the Votes for Schools platform. Some assemblies will have a PSHE focus and build upon the themes discussed.

Extracurricular opportunities	N/A
Positive impacting on personal development (SMSC)	Over the course of the PSHE curriculum students will develop a deeper understanding of the following issues: families, respectful relationships including friendships & staying safe online. They will also understand what it means to be a British and global citizen.
Preparing for the next stage of education	Allows students to be well rounded, thoughtful British and global citizens.
Ways to support your child's learning	Praise for effort rather than being 'clever' shows them that by working hard they can always improve
